Italy's Foreign Policy in the Twenty-first Century Ludovica Marchi, Richard Whitman, Geoffrey Edwards, 2014-10-17 Italy's foreign policy has often been dismissed as too idiosyncratic, inconsistent and lacking ambition. This book offers new insights into the position Italy has attained in the international community in the 21st century. It explores how the country has sought to take advantage of its passage from a bipolar to a multipolar system and assesses the ways in which it has engaged internationally, its new responsibilities, and the manner in which it conducts its policies in the pursuit of its interests, whether political or commercial. It argues that although Italy is engaged internationally, there is a gap between its actions and what it actually delivers, and as long as this gap continues Italy is likely to remain a partial and unreliable foreign policy actor. Divided into three parts, this book explores: the context and processes which characterise Italy's external action its relations with crucial countries and regions such as the US, the EU, and the BRICs its security and defence policies. This book will be of interest to students and scholars of European Politics, Foreign Policy analysis and Italian studies.

A Political History of National Citizenship and Identity in Italy, 1861-1950 Sabina Donati, 2013-06-26 This book examines the fascinating origins and the complex evolution of Italian national citizenship from the unification of Italy in 1861 until just after World War II. It does so by exploring the civic history of Italians in the peninsula, and of Italy's colonial and

overseas native populations. Using little-known documentation, Sabina Donati delves into the policies, debates, and formal notions of Italian national citizenship with a view to grasping the multi-faceted, evolving, and often contested vision(s) of *italianità*. In her study, these disparate visions are brought into conversation with contemporary scholarship pertaining to alienhood, racial thinking, migration, expansionism, and gender. As the first English-language book on the modern history of Italian citizenship, this work highlights often-overlooked precedents, continuities, and discontinuities within and between liberal and fascist Italies. It invites the reader to compare the Italian experiences with other European ones, such as French, British, and German citizenship traditions.

Abolitionism and the Persistence of Slavery in Italian States, 1750-1850 Giulia Bonazza, 2018-12-13 This volume offers a pioneering study of slavery in the Italian states. Documenting previously unstudied cases of slavery in six Italian cities—Naples, Caserta, Rome, Palermo, Livorno and Genoa—Giulia Bonazza investigates why slavery survived into the middle of the nineteenth century, even as the abolitionist debate raged internationally and most states had abolished it. She contextualizes these cases of residual slavery from 1750-1850, focusing on two juridical and political watersheds: after the Napoleonic period, when the Italian states (with the exception of the Papal States) adopted constitutions outlawing slavery; and after the Congress of Vienna, when diplomatic relations between the Italian states, France and Great Britain intensified and slavery was condemned in terms that covered only the Atlantic slave trade. By excavating the lives of men and women who remained in slavery after abolition, this book sheds new light on the broader Mediterranean and transatlantic dimensions of slavery in the Italian states.

Das Selbstbestimmungsrecht der Völker Peter Hilpold, 2009 Der Ruf nach Selbstbestimmung hat die völkerrechtliche Diskussion des 20. Jahrhunderts geprägt. Das Selbstbestimmungskonzept bleibt aber auch im 21. Jahrhundert aktuell, ja es ist aktueller denn je. Weltweit werden unter Berufung auf das Selbstbestimmungsrecht Staatsgrenzen und ganze Staatswesen in Frage gestellt. Zahlreiche Völker rechtfertigen damit ihr Streben nach Eigenstaatlichkeit. Wie weit reicht nun dieser Anspruch nach geltendem Völkerrecht? Wer ist überhaupt Träger dieses Rechts? Auf diese und zahlreiche andere Fragestellungen rund um das Selbstbestimmungsrecht der Völker wird in diesem Band eingegangen, der Ergebnis einer internationalen Tagung auf Schloss Sigmundskron bei Bozen ist. In diesem Buch wird insbesondere aufgezeigt, dass das Selbstbestimmungsrecht der Völker zahlreiche Nuancen aufweist und differenziert eingesetzt auch eine beachtliche friedenssichernde Wirkung entfalten kann.

The Return of the Native Rebecca A. Earle, 2007-12-28 Why does Argentina's national anthem describe its citizens as sons of the Inca? Why did patriots in nineteenth-century Chile name a battleship after the Aztec emperor Montezuma?

Answers to both questions lie in the tangled knot of ideas that constituted the creole imagination in nineteenth-century Spanish America. Rebecca Earle examines the place of preconquest peoples such as the Aztecs and the Incas within the sense of identity—both personal and national—expressed by Spanish American elites in the first century after independence, a time of intense focus on nation-building. Starting with the anti-Spanish wars of independence in the early nineteenth century, Earle charts the changing importance elite nationalists ascribed to the pre-Columbian past through an analysis of a wide range of sources, including historical writings, poems and novels, postage stamps, constitutions, and public sculpture. This eclectic archive illuminates the nationalist vision of creole elites throughout Spanish America, who in different ways sought to construct meaningful national myths and histories. Traces of these efforts are scattered across nineteenth-century culture; Earle maps the significance of those traces. She also underlines the similarities in the development of nineteenth-century elite nationalism across Spanish America. By offering a comparative study focused on Mexico, Guatemala, Colombia, Peru, Chile, and Ecuador, *The Return of the Native* illustrates both the common features of elite nation-building and some of the significant variations. The book ends with a consideration of the pro-indigenous indigenista movements that developed in various parts of Spanish America in the early twentieth century.

Domesticating International Criminal Law Florian Jeßberger, Chantal Meloni, Maria Crippa, 2023-06-01 This book provides an essential and critical overview of the most significant issues concerning the domestication of international criminal law, in particular with regard to the implementation of the ICC Statute. It discusses the most recent proposals for reform of the German Code of Crimes under International Law, the *Völkerstrafgesetzbuch*, 20 years after its entering into force and introduces the project for an Italian code of international crimes drafted by the Committee of experts established in 2022 by the Ministry of Justice. Following the adoption of the ICC Statute, many States, including Germany with the *Völkerstrafgesetzbuch*, introduced specific legislation to incorporate international criminal law into their domestic legal systems and a considerable number of them have been investigating and prosecuting war crimes, crimes against humanity, genocide, and even aggression ever since. Twenty-five years later, however, the process is not completed as other countries, like Italy, are still working on adopting provisions on international crimes. This book opens with a broad overview of the different approaches of the domestication of international criminal law, with a specific focus on the German and the Italian systems. After an assessment of the prerequisites for the domestic implementation of international criminal law, also from a constitutional law perspective, each chapter offers an in-depth analysis of a specific issue, such as: the definition of international crimes (genocide and crimes against humanity, war crimes and aggression); the applicability of and exceptions to the general principles of domestic criminal law; the regulation of individual criminal responsibility; sanctions and sentencing; as well as procedural aspects related to immunities, jurisdiction and prosecutorial discretion. The strong

academic perspective of many authors is complemented by an equally strong practitioner perspective of the others, provided by legal scholars in the highest positions in international and national judicial institutions, resulting in a well-informed and critical appraisal of the most recent developments overall in the international criminal justice system. Domesticating International Criminal Law will be of great interest to legal scholars and students, as well as practitioners with an interest in comparative and international law, international criminal law and international relations.

Jacob Moleschott - A Transnational Biography Laura Meneghello, 2017-11-30 This is the first academic biography of the scientist and politician Jacob Moleschott (1822-1893). Based on a vast range of primary sources in German, Italian, Dutch, French, and Latin, it not only sheds new light on the history of materialism in the natural sciences, but also shows the deep entanglement of science, politics, and popularization in 19th-century Europe. Applying new methods from cultural history and the history of science, Laura Meneghello focuses on processes of knowledge circulation, transnational mobility, and the role of translation in 19th-century science.
