**La pubblica amministrazione digitale. Appunti per gli operatori della P.A.** Mario Canton, 2017-07-07 Ho iniziato a scrivere questo libro seguendo un corso di aggiornamento lavorativo sulla digitalizzazione nella Pubblica Amministrazione durante il quale ho cercato pervicacemente di dare un senso al profluvio di normativa dalla quale sono stati «investiti» gli operatori per attuare la tanto decantata «rivoluzione digitale» nella P.A. Così, per sintetizzare questa esperienza formativa e per venire incontro alle esigenze di altri nella medesima situazione, ho pensato di scrivere – mettendoli in ordine – questi appunti, che certamente non saranno fondamentali da un punto di vista operativo, ma spero che lo siano almeno da un punto di vista concettuale. Facendosi un'idea della problematica, potrebbe aumentare la fiducia in sé stessi e nella propria capacità di cambiare – lentamente e faticosamente – le situazioni in essere e potrebbe anche diminuire il senso di isolamento e di scoraggiamento a fronte di risorse sempre limitate. Questi gli argomenti trattati: – la digitalizzazione nella P.A.; – la transizione dal cartaceo; – la documentazione; – i problemi di sicurezza; – la riusabilità; – il concetto di documento (cartaceo e informatico); – il protocollo informatico; – la protezione dei dati personali; – l'archivio (cartaceo e digitale); – il documento informatico sin dall'origine; – i flussi documentali e la loro analisi; – l'identità digitale; – la posta elettronica certificata; – gli amministratori di sistema; – il piano triennale di informatizzazione della P.A.; – una esperienza pratica di attuazione; – una appendice contenente il testo integrale del Codice dell'Amministrazione Digitale (nella sua ultima versione) e delle Regole Tecniche dell'AgID.

**Handbook of Accounting and Public Governance** Giuseppe Grossi, Jarmo Vakkuri, 2024-02-12 Expertly navigating the complex relationships between accounting and the development of hybridized public governance, this erudite Handbook critically analyses the most pressing challenges and limitations currently facing accounting and public governance research. Comprehensively drawing intricate links between accounting, public governance and hybridization, it conceptualizes the role of accounting by looking at the current and prospective needs of hybridized public governance.

Dietz, David Aveiro, Kecheng Liu, Joaquim Filipe, 2017-01-21 This book constitutes the thoroughly refereed proceedings of the 7th International Joint Conference on Knowledge Discovery, Knowledge Engineering and Knowledge Management, IC3K 2015, held in Lisbon, Portugal, in November 2015. *The Social Dynamics of Open Data* Francois van Schalkwyk, G Verhulst, 2017-12-17 The Social Dynamics of Open Data is a

collection of peer reviewed papers presented at the 2nd Open Data Research Symposium (ODRS) held in Madrid, Spain, on 5 October 2016. Research is critical to developing a more rigorous and fine-combed analysis not only of why open data is valuable, but how it is valuable and under what specific conditions. The objective of the Open Data Research Symposium and the subsequent collection of chapters published here is to build such a stronger evidence base. This base is essential to understanding what open data's impacts have been to date, and how positive impacts can be enabled and amplified. Consequently, common to the majority of chapters in this collection is the attempt by the authors to draw on existing scientific theories, and to apply them to open data to better explain the socially embedded dynamics that account for open data's successes and failures in contributing to a more equitable and just society.

**ANNO 2023 IL GOVERNO QUINTA PARTE** ANTONIO GIANGRANDE, Antonio Giangrande, orgoglioso di essere diverso. ODIOSITÀ, IMPOSIZIONE E MENZOGNA. Nella vita di ognuno due cose sono certe: la vita e la morte. Si nasce senza volerlo. Si muore senza volerlo. Si vive una vita di prese per il culo. Gli animali, da sé, per indole emulano ed imitano, imparando atteggiamenti e comportamenti dei propri simili. Senonché sono proprio i simili, a difesa del gruppo, a inculcare nella mente altrui il principio di omologazione e conformazione. Noi siamo quello che altri hanno voluto che diventassimo. Facciamo in modo che diventiamo quello che noi avremmo (rafforzativo di saremmo) voluto diventare. Tu esisti se la tv ti considera. I Fatti son fatti oggettivi naturali e rimangono tali. Chi conosce i fatti si chiama esperto ed esprime pareri. Chi non conosce i fatti esprime opinioni e si chiama opinionista. Le opinioni sono atti soggettivi cangianti. Le opinioni se sono oggetto di discussione ed approfondimento, in TV diventano testimonianze. Ergo: Fatti. Con me i pareri e le opinioni cangianti, contrapposte e in contraddittorio, diventano fatti. Con me i fatti, e la Cronaca che li produce, diventano Storia. Rappresentare con verità storica, anche scomoda ai potenti di turno, la realtà contemporanea, rapportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perché la massa dimentica o non conosce. Denuncio i difetti e caldeggio i pregi italiani. Perché non abbiamo orgoglio e dignità per migliorarci e perché non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi. Insomma, siamo bravi a farci del male e qualcuno deve pur essere diverso!

**Reshaping Accounting and Management Control Systems** Katia Corsi, Nicola Giuseppe Castellano, Rita Lamboglia, Daniela Mancini, 2017-03-21 This book examines the relationship between digital innovations on the one hand, and accounting and management information systems on the other. In particular it addresses topics including cloud computing, data mining, XBRL, and digital platforms. It presents an analysis of how new technologies can reshape accounting and management information systems, enhancing their information potentialities and their ability to support decision-making processes, as well as several studies that reveal how managerial information needs can affect and reshape the adoption of digital technologies. Focusing on the four major aspects data management, information system architecture, external and

internal reporting, the book offers a valuable resource for CIOs, CFOs and more generally for business managers, as well as for researchers and scholars. It is mainly based on a selection of the best papers - original double blind reviewed contributions - presented at the 2015 Annual Conference of the Italian Chapter of the Association for Information Systems (AIS).

Tourism Recovery From Covid-19: Prospects For Over- And Under-tourism Regions Anna Trono, Tomasz Duda, Jurgen Schmude, 2022-10-14 In recent years, discussion on tourism has focused mainly on global problems relating to the over-exploitation of space, leaving other aspects of the development of tourist activities almost completely ignored. The book will focus not only on the widely understood tourist exploitation processes, their geographical diversity and density, but also on their significance and influence (economic, socio-cultural, tourist etc.) on regional development and sustainability. It will also cover the debate on promotion of innovative, sustainable and responsible tourism strategies, plans and funds, and the movement towards responsible and sustainable cultural tourism through the crisis in marginal areas. It will also highlight the dramatic changes to the global tourism industry brought about by the COVID-19 pandemic in recent months.

*Financial Determinants in Local Re-Election Rates: Emerging Research and Opportunities* Cunha, Ana Maria, Ferreira, Augusta, Fernandes, Maria José, Gomes, Patrícia, 2019-10-25 Accounting information, on the one hand, allows government officials to obtain better information to support greater decision making, transparency, and accountability. On the other hand, this financial information also allows local citizens more access to knowledge of how public resources are being managed and used by the local government entities. Measuring the pros and cons of this information may determine how certain officials remain in office while others do not. *Financial Determinants in Local Re-Election Rates: Emerging Research and Opportunities* is a collection of innovative research that assesses whether accounting information and other factors have an impact on electoral results, which in turn impact re-election in local government. While highlighting topics including political financing, voting behavior, and capital spending, this book is ideally designed for political analysts, politicians, government officials, researchers, policymakers, public policy managers, financial analysts, academicians, and students seeking current research on financial information and other factors having an impact on electoral results.

**La lista della spesa** Carlo Cottarelli, 2016-03-31 T00:00:00+02:00 "Dovrebbe essere una lettura d'obbligo per politici e amministratori pubblici" Sabino Cassese Carlo Cottarelli è stato commissario straordinario alla spending review e dal suo lavoro avrebbero dovuto arrivare diversi miliardi per le esauste casse dello stato italiano. A distanza di alcuni mesi dalla fine del suo mandato, Cottarelli affida a questo libro le sue riflessioni, i suoi ricordi, le sue diagnosi per cercare di spiegare al grande pubblico uno dei grandi misteri italiani: quell'enorme calderone che è la nostra spesa pubblica. Senza tecnicismi ma non tralasciando nulla di importante, Cottarelli ci guida nei meandri del bilancio statale, facendoci scoprire man mano il grande meccanismo che regola la nostra vita di cittadini, un meccanismo di cui abbiamo solo una vaga percezione, al tempo

stesso minacciosa e sfocata. Dove vanno a finire tutti i soldi che paghiamo con le tasse? Davvero spendiamo troppo per i servizi pubblici? Perché si finisce sempre a parlare di tagli alle pensioni? Sprecano di più i comuni, le regioni o lo stato centrale? Ma gli altri paesi come fanno? Un libro chiaro e autorevole, per fare le pulci alla macchina statale italiana, al di là dei luoghi comuni e delle polemiche giornalistiche: perché analizzare un bilancio statale può sembrare arido e difficile, ma con la guida giusta può diventare la lettura più acuta, sorprendente e accurata di un paese intero.

**Cittadinanze amministrative** Domenico Sorace, Leonardo Ferrara, Antonio Bartolini, Alessandra Pioggia, 2017-08-30 Nel 1865 furono emanate le leggi di unificazione amministrativa del Regno d'Italia. In occasione del centocinquantenario, il Dipartimento di Scienze Giuridiche dell'Università di Firenze ha organizzato un progetto di studi sulle trasformazioni che nell'ultimo cinquantennio hanno interessato gli apparati e le attività dell'amministrazione della Repubblica, vista nel suo articolato governo locale e nella sua appartenenza all'Unione europea. Le ricerche hanno coinvolto, nell'arco di quasi due anni, più di centocinquanta studiosi di Università italiane. I risultati sono stati presentati il 15 e 16 ottobre del 2015 a Firenze, la città che centocinquanta anni prima era stata Capitale d'Italia e che nel 1965 aveva ospitato il convegno celebrativo del centenario delle stesse leggi di unificazione amministrativa. Gli studi condotti sono ora pubblicati in forma definitiva e organizzati in otto volumi. Piano dell'opera I. L'organizzazione delle pubbliche amministrazioni tra Stato nazionale e integrazione europea, a cura di Roberto Cavallo Perin, Aristide Police, Fabio Saitta II. La coesione politico-territoriale, a cura di Gabriella De Giorgi Cezzi, Pier Luigi Portaluri III. La giuridificazione, a cura di Barbara Marchetti, Mauro Renna IV. La tecnificazione, a cura di Stefano Civitarese Matteucci, Luisa Torchia V. L'intervento pubblico nell'economia, a cura di Maurizio Cafagno, Francesco Manganaro VI. Nuova trasparenza amministrativa e libertà di accesso alle informazioni Benedetto Ponti, 2016

**La pubblica amministrazione digitale 2** Mario Canton, 2018-07-07 Trascorso un anno dalla pubblicazione della prima edizione di «La pubblica amministrazione digitale» sono state introdotte talmente tante novità da necessitare un «aggiornamento» di quegli appunti per gli operatori della P.A. per passare in rassegna le «novità» e analizzare lo «stato di fatto» del processo di digitalizzazione nazionale. La più grande fra le novità è senza dubbio l'entrata in vigore a gennaio 2018 del nuovo Codice dell'Amministrazione Digitale (c.d. CAD 4.0). In questa edizione non vengono riportati tutti i contenuti della prima edizione, che rimangono indispensabili premesse sui concetti di base coinvolti nella «digitalizzazione della P.A.» e a cui si rimanda per ogni utile approfondimento. Qui vengono passati in rassegna concetti e azioni che risultano premesse indispensabili per l'aderenza al nuovo CAD e al Piano Triennale dell'Informatizzazione della P.A.

**New Metropolitan Perspectives** Francesco Calabrò, Lucia Della Spina, María José Piñeira Mantiñán, 2022-08-24 The

book aims to face the challenge of post-COVID-19 dynamics toward green and digital transition, between metropolitan and return to villages' perspectives. It presents a multi-disciplinary scientific debate on the new frontiers of strategic and spatial planning, economic programs and decision support tools, within the urban-rural areas networks and the metropolitan cities. The book focuses on six topics: inner and marginalized areas local development to re-balance territorial inequalities; knowledge and innovation ecosystem for urban regeneration and resilience; metropolitan cities and territorial dynamics; rules, governance, economy, society; green buildings, post-carbon city and ecosystem services; infrastructures and spatial information systems; cultural heritage: conservation, enhancement and management. In addition, the book hosts a Special Section: Rhegion United Nations 2020-2030. The book will benefit all researchers, practitioners and policymakers interested in the issues applied to metropolitan cities and marginal areas.

*Equilibri digitali* Alberto Stornelli, 2014-10-07 Snowden è arrivato come una slavina sull'atteggiamento di tranquilla fiducia del villaggio globale nei confronti delle sorti fatalmente e inevitabilmente progressive delle tecnologie del web e di Internet. Il web non è un'oasi felice ma uno spazio comune e, come tale, va difeso e progettato. Per questo motivo abbiamo bisogno di conoscere le battaglie hacker per la liberazione dell'informazione, le piattaforme informatiche e il loro utilizzo dei nostri dati, i software civici. Internet forse non ci salverà, ma è ancora possibile veicolare attraverso questo mezzo il cambiamento, dando alle persone gli strumenti per gestire la propria comunità, inserendo le questioni di pubblico interesse e il senso civico nei nostri mondi digitali. Come? Questo saggio di Alberto Stornelli è una lucida riflessione su un futuro che è già qui.

Digital Media and Grassroots Anti-Corruption Alice Mattoni, 2024-05-02 Delving into a burgeoning field of research, this enlightening book utilises case studies from across the globe to explore how digital media is used at the grassroots level to combat corruption. Bringing together an impressive range of experts, Alice Mattoni deftly assesses the design, creation and use of a wide range of anti-corruption technologies.

*Le sostenibili carte dell'Italia* Luca Paolazzi, Mauro Sylos Labini, Teresa Gargiulo, 2018-03-01 T00:00:00+01:00 Cos'è la sostenibilità? Riguarda l'ambiente o anche molto altro? È una questione solamente etica che fa appello al senso di responsabilità, individuale e collettivo, o è pure un affare economico? Si tratta di una moda passeggera o è una duratura e sempre più forte tendenza mondiale? Qual è la situazione dell'Italia? E l'opinione degli italiani? Quali carte il Bel Paese può giocare per vincere questa difficile e decisiva partita? Quali valori lo distinguono dai concorrenti e gli danno un vantaggio, se trasformati in fattori per generare benessere? Che ruolo può avere la cultura? E il territorio? E quanto importante è il contributo delle imprese e degli imprenditori? Queste sono alcune delle molte domande da cui ha preso le mosse la ricerca contenuta in questo volume. Le risposte sono incoraggianti e identificano le aree in cui istituzioni e imprese possono e devono fare di più e meglio. Puntano nella stessa direzione: per raggiungere la meta della sostenibilità, la via italiana deve

coinvolgere tutti i soggetti, il settore pubblico come quello privato, i singoli e le associazioni. Occorre una strategia complessiva dell'intero Paese, che è chiamato ad affrontare, con spirito imprenditoriale finalmente consapevole, la riconciliazione della crescita economica, dell'equilibrio ambientale e dell'equità. Insomma, della sostenibilità a tutto tondo.

**Roma il coraggio di cambiare** Claudio Cipollini, 2021-04-14T00:00:00+02:00 Un saggio che per la prima volta affronta la crisi che attanaglia la città eterna con metodologie innovative per la politica romana in grado di svegliare il gigante che dorme da oltre un decennio. Scrive Innocenzo Cipolletta nella prefazione: "Cipollini avanza diverse critiche a quello che oggi è Roma, ma sa che questa città non ha solo una grande storia ma anche un grande futuro che aspetta solo di essere avviato. Come? Cipollini risponde con un approccio che coniughi la politica con il management. Lascio volentieri al lettore di scoprire cosa si intende per un mix tra politica e management, ricordando che Cipollini è un esperto di management e, con generosità, ha riversato questa esperienza nelle problematiche di gestione di una città". L'autore nel libro esplora e approfondisce la conoscenza della situazione attuale, propone tecniche per affrontare la complessità della città e individua le priorità da cui ripartire per fare di Roma una capitale moderna. Un nuovo sistema di governo per superare i vecchi approcci che non sono più in grado di cambiare il volto della città e le sue varie realtà sociali ed economiche. Con il coraggio e la responsabilità del cambiamento e l'obiettivo del bene comune. Claudio Cipollini è un manager esperto nelle tematiche dell'innovazione dello sviluppo locale maturate in Italia e all'estero in grandi gruppi imprenditoriali pubblici e nel privato. Dopo la laurea in architettura con lode e il diploma in gestione e amministrazione aziendale è stato tra l'altro responsabile ambiente e direttore per l'innovazione a Bonifica (Iri-Italstat), direttore della valorizzazione del patrimonio a Ferrovie dello Stato Italiane, direttore generale di Metropolis (FS Italiane), di MediaCamere e ReteCamere (Camere di Commercio) e di Amam (Comune di Messina) e direttore dell'European Business Promotion Center (Shanghai, Cina).
