Financial Innovation and Resilience Lilia Costabile, Larry Neal, 2018-09-28 As Ignazio Visco, Governor of the Bank of Italy, says in his Foreword, all economic policy makers today need to re-examine our history to help them confront the challenges of today. This edited volume focuses specifically on the theme of financial innovation and how financial resiliency was achieved in Naples. To highlight both the achievements of the public banks of Naples and their lessons for financial resiliency, the book focuses on financial crises and how they were overcome in Naples in contrast to other European financial systems. The first section focuses on the development of the public banks unique to Naples. The second section compares those with other banking systems and how they responded to the same shock in 1622, caused by the full mobilization of European belligerents to finance their efforts in the Thirty Years War. The next section compares lessons learned in the rest of Europe over the next century and a half. The final section comes back to original start of the narrative arc to suggest ways that today's policymakers and thinkers could use the historical experience of the public banks of Naples to deal better with the ongoing problems stemming from the financial crisis of 2007-08.

**Watch Me Play** T.L. Taylor, 2018-10-16 A look at the revolution in game live streaming and esports broadcasting Every day thousands of people broadcast their gaming live to audiences over the internet using popular sites such as Twitch, which reaches more than one hundred million viewers a month. In these new platforms for interactive entertainment, big esports events featuring digital game competitors live stream globally, and audiences can interact with broadcasters—and each other—through chat in real time. What are the ramifications of this exploding online industry? Taking readers inside home studios and backstage at large esports events, Watch Me Play investigates the rise of game live streaming and how it is poised to alter how we understand media and audiences. Through extensive interviews and immersion in this gaming scene, T. L. Taylor delves into the inner workings of the live streaming platform Twitch. From branding to business practices, she shows the pleasures and work involved in this broadcasting activity, as well as the management and governance of game live streaming and its hosting communities. At a time when gaming is being reinvented through social media, the potential of an ever-growing audience is transforming user-generated content and alternative distribution methods. These changes will

challenge the meaning of ownership and intellectual property and open the way to new forms of creativity. The first book to explore the online phenomenon Twitch and live streaming games, *Watch Me Play* offers a vibrant look at the melding of private play and public entertainment.

**All the News That's Fit to Click** Caitlin Petre, 2021-09-21 From the New York Times to Gawker, a behind-the-scenes look at how performance analytics are transforming journalism today—and how they might remake other professions tomorrow. Journalists today are inundated with data about which stories attract the most clicks, likes, comments, and shares. These metrics influence what stories are written, how news is promoted, and even which journalists get hired and fired. Do metrics make journalists more accountable to the public? Or are these data tools the contemporary equivalent of a stopwatch wielded by a factory boss, worsening newsroom working conditions and journalism quality? In *All the News That's Fit to Click*, Caitlin Petre takes readers behind the scenes at the New York Times, Gawker, and the prominent news analytics company Chartbeat to explore how performance metrics are transforming the work of journalism. Petre describes how digital metrics are a powerful but insidious new form of managerial surveillance and discipline. Real-time analytics tools are designed to win the trust and loyalty of wary journalists by mimicking key features of addictive games, including immersive displays, instant feedback, and constantly updated “scores” and rankings. Many journalists get hooked on metrics—and pressure themselves to work ever harder to boost their numbers. Yet this is not a simple story of managerial domination. Contrary to the typical perception of metrics as inevitably disempowering, Petre shows how some journalists leverage metrics to their advantage, using them to advocate for their professional worth and autonomy. An eye-opening account of data-driven journalism, *All the News That's Fit to Click* is also an important preview of how the metrics revolution may transform other professions.

**Women of the Mafia** Felia Allum, 2024-07-15 *Women of the Mafia* dives into the Neapolitan criminal underworld of the Camorra as seen and lived by the women who inhabit it. It tells their life stories and unpacks the gender dynamics by examining their participation as active agents in the organization as leaders, managers, foot soldiers, and enablers. Felia Allum shows that these women are true partners in crime. The author offers an innovative interdisciplinary analysis that demystifies the notion that the Camorra is a sexist, male-centric organization. She links her analysis of Camorra culture within the wider Neapolitan context to show how mothers and women act and are treated in the private sphere of the household and how the family helps explain the power women have found in the Neapolitan Camorra. It is civil society and law enforcement agencies that continue to see the Camorra using traditional gender assumptions which render women irrelevant and lacking independent agency in the criminal underworld. In *Women of the Mafia*, Allum debunks these assumptions by revealing the power and influence of women in the Camorra.

**The Social Condition of Deaf People** Sara Trovato, Anna Folchi, 2022-05-09 This book is about the social condition of

Deaf people, told through a Deaf woman's autobiography and a series of essays investigating how hearing societies relate to Deaf people. Michel Foucault described the powerful one as the beholder who is not seen. This is why a Deaf woman's perspective is important: Minorities that we don't even suspect we have power over observe us in turn. Majorities exert power over minorities by influencing the environment and institutions that simplify or hinder lives: language, mindsets, representations, norms, the use of professional power. Based on data collected by Eurostat, this volume provides the first discussion of statistics on the condition of Deaf people in a series of European countries, concerning education, labor, gender. This creates a new opportunity to discuss inequalities on the basis of data. The case studies in this volume reconstruct untold moments of great advancement in Deaf history, successful didactics supporting bilingualism, the reasons why Deaf empowerment for and by Deaf people does and does not succeed. A work of empowerment is effective if it acts on a double level: the community to be empowered and society at large, resulting in a transformation of society as a whole. This book provides instruments to work towards such a transformation.

The Power of Platforms Rasmus Kleis Nielsen, Sarah Anne Ganter, 2022 More people today consume news via Facebook and Google than from any news organization in history. As a consequence, the technology companies behind them exercise new, distinct forms of platform power. In *The Power of Platforms*, Rasmus Kleis Nielsen and Sarah Anne Ganter draw on original interviews and other qualitative evidence from the United States, France, Germany, and the United Kingdom to trace the development of the relationships between platforms and news publishers. They analyze how technology companies exercise platform power, how news organizations have responded, and unfold the implications for news and our societies more broadly.

**Media Audiences** John L. Sullivan, 2019-07-24 Whether we are watching TV, surfing the Internet, listening to our iPods, or reading a novel, we all engage with media as an audience. Despite the widespread use of this term in our popular culture, the meaning of the audience is complex, and it has undergone significant historical shifts as new forms of mediated communication have developed from print, telegraphy, and radio to film, television, and the Internet. John L. Sullivan's second edition of *Media Audiences: Effects, Users, Institutions, and Power* explores the concept of media audiences from four broad perspectives: as victims of mass media, as market constructions & commodities, as users of media, and as producers & subcultures of mass media. The goal is for students to be able to think critically about the role and status of media audiences in contemporary society, reflecting on their relative power in relation to institutional media producers.

*Public Relations, Branding and Authenticity* Sian Rees, 2020-01-31 *Public Relations, Branding and Authenticity: Brand Communications in the Digital Age* explores the role of PR and branding in society by considering the notion of authentic communications within the context of an emerging digital media environment. This qualitative analysis explores the challenge of developing authentic brand narratives in the digital age, whilst questioning the problematic nature of

authenticity itself. Case studies of public relations activity of successful brands, and those in crisis, are supplemented by interviews with senior public relations and branding practitioners. The book lays out three specific arguments. Firstly, a repositioning of the relationship between public relations and brand practice is explored. It is argued that public relations practitioners are well placed to facilitate brands in the digital age, because of the inherent acceptance of the value of relationship building, adaptation and boundary spanning embedded in PR practice and best practice theory. Secondly, the book introduces a new concept of riparian brands. Such brands are based on solid core values, but have an ability to atune, adjust and naturalise to the prevailing social, cultural and economic environment. Thirdly, the book presents an ontology of the riparian brand in the form of an authentic brand wheel and 15 real-time interaction success factors. Aimed at both academics and practitioners interested in the theoretical development of PR and its emerging relationship with branding, it will also be of interest to scholars of corporate communications, corporate reputation and branding.

*The Social Media Age* Zoetanya Sujon, 2021-04-07 Exploring power and participation in a connected world. Social media are all around us. For many, they are the first things to look at upon waking and the last thing to do before sleeping. Integrated seamlessly into our private and public lives, they entertain, inform, connect (and sometimes disconnect) us. They're more than just social though. In addition to our experiences as everyday users, understanding social media also means asking questions about our society, our culture and our economy. What we find is dense connections between platform infrastructures and our experience of the social, shaped by power, shifting patterns of participation, and a widening ideology of connection. This book introduces and examines the full scope of social media. From the social to the technological, from the everyday to platform industries, from the personal to the political. It brings together the key concepts, theories and research necessary for making sense of the meanings and consequences of social media, both hopefully and critically. Dr Zoetanya Sujon is a Senior Lecturer and Programme Director for Communications and Media at London College of Communication, University of the Arts London.

*Tourism Governance* Amir Gohar, 2022-06-06 Tourism Governance takes a systematic approach to reveal the varying

internal and external dynamics that influence tourism policy and strategy across countries. With particular attention to the role of stakeholders and governmental scales, the book offers a broad geographic representation, highlighting the diversity of governance relationships towards tourism in Colombia, Egypt, Finland, France, India, Italy, Lebanon, Mexico, Oman, Poland, Portugal, Thailand, Tunisia, Turkey, and United States. Two additional chapters push beyond borders to examine tourism driven nongovernmental organizations and international tourism governance. As the first and only comprehensive comparative analysis of tourism across governmental systems, Tourism Governance promises to be a platform for inspiring critical discourse on the forces that shape this global industry.

Free Speech and Censorship Cari Lee Skogberg Eastman, 2022-02-15 This annotated document collection surveys the history and evolution of laws and attitudes regarding free speech and censorship in the United States, with a special emphasis on contemporary events and controversies related to the First Amendment. The United States' collective understanding of First Amendment freedoms was formed by more than 200 years of tensions between the power of word and the power of the government. During that time, major laws and legal decisions defined the circumstances and degree to which personal expression could be rightfully expressed—and rightfully limited. This struggle to define the parameters of free speech continues today. Vibrant and passionate debates about First Amendment limitations once inspired by the dissemination of birth control information now address such issues as kneeling during the national anthem, removing controversial books from public libraries, attempts by the Trump administration to discredit the press, and disseminating false or hateful information through social media platforms. By exploring diverse examples of censorship victories and triumphs of free expression, readers will better understand the enormous impact of First Amendment freedoms on American society.

**Pedestrians, Urban Spaces and Health** Maurizio Tira, Michèle Pezzagno, Anna Richiedei, 2020-08-31 Today, citizens advocate greater environmental sustainability, better services and the improvement of urban quality by promoting safer

The contributions discuss town planning issues, look at best practices and research findings across the broad spectrum of urban and transport planning, with particular attention to the safety of pedestrians in the city. The main topics of the book are: Walking experiences Urban spaces and Redevelopment Healthy cities (as Urban resilience and for Weakest users) Pedestrians, Urban spaces and Health is a powerful plea for a multi-disciplinary and comprehensive approach to urban mobility and planning, and will be of interest to academics, consultants and practitioners interested in these areas.

*Networked Press Freedom* Mike Ananny, 2018-05-04 Reimagining press freedom in a networked era: not just a journalist's right to speak but also a public's right to hear. In *Networked Press Freedom*, Mike Ananny offers a new way to think about freedom of the press in a time when media systems are in fundamental flux. Ananny challenges the idea that press freedom comes only from heroic, lone journalists who speak truth to power. Instead, drawing on journalism studies, institutional sociology, political theory, science and technology studies, and an analysis of ten years of journalism discourse about news and technology, he argues that press freedom emerges from social, technological, institutional, and normative forces that vie for power and fight for visions of democratic life. He shows how dominant, historical ideals of professionalized press freedom often mistook journalistic freedom from constraints for the public's freedom to encounter the rich mix of people and ideas that self-governance requires. Ananny's notion of press freedom ensures not only an individual right to speak, but also a public right to hear. Seeing press freedom as essential for democratic self-governance, Ananny explores what publics need, what kind of free press they should demand, and how today's press freedom emerges from intertwined collections of humans and machines. If someone says, "The public needs a free press," Ananny urges us to ask in response,

“What kind of public, what kind of freedom, and what kind of press?” Answering these questions shows what robust, self-governing publics need to demand of technologists and journalists alike.
