Romaphobia Dr Aidan McGarry,2017-02-15 Based on first-hand accounts from Roma communities, Romaphobia is an examination of the discrimination faced by one of the most persecuted groups in Europe. Well-researched and informative, it shows that this discrimination has its roots in the early history of the European nation-state, and the ways in which the landless Roma have been excluded from national communities founded upon a notion of belonging to a particular territory. Romaphobia allows us to unpick this relationship between identity and belonging, and shows the way towards the inclusion of Roma in society, providing vital insights for other marginalized communities.

Words in Space and Time Tomasz Kamusella,2021-11-30 With forty-two extensively annotated maps, this atlas offers novel insights into the history and mechanics of how Central Europe's languages have been made, unmade, and deployed for political action. The innovative combination of linguistics, history, and cartography makes a wealth of hard-to-reach knowledge readily available to both specialist and general readers. It combines information on languages, dialects, alphabets, religions, mass violence, or migrations over an extended period of time. The story first focuses on Central Europe's dialect continua, the emergence of states, and the spread of writing technology from the tenth century onward. Most maps concentrate on the last two centuries. The main storyline opens with the emergence of the Western European concept of the nation, in accord with which the ethnolinguistic nation-states of Italy and Germany were founded. In the Central European view, a "proper" nation is none other than the speech community of a single language. The Atlas aspires to help users make the intellectual leap of perceiving languages as products of human history and part of culture. Like states, nations, universities, towns, associations, art, beauty, religions, injustice, or atheism—languages are artefacts invented and shaped by individuals and their groups.

*Proceedings of the 5th International Conference on Language, Linguistics, and Literature (COLALITE 2023)* Usep Muttaqin,Dian Bayu Firmansyah,Ambhita Dhyaningrum,Tri Wahyu Setiawan Prasetyoningsih,Ririn Kurnia Trisnawati,2023-11-03 This is an open access book. The biennial Conference of Language, Linguistics, and Literature (Colalite) always attempts to accommodate intriguing themes. This year, the 5th International Colalite presents Dressed to Kill: Fashion, Body, and Identity as a theme to accommodate the growing interest in fashion and lifestyle in the fields of

language, literature, cultural studies, translation, and business communication. For this reason, the 5th Colalite encourages researchers, authors, academic practitioners, and those who are interested in exploring this issue to participate in the conference.

*Alle pendici dei Colli Albani / On the slopes of the Alban Hills* Agnese Livia Fischetti, Peter Attema, 2019-06-01 This volume results from the conference Between Appia and Latina, Settlement Dynamics and Territorial Development on the Slopes of the Alban Hills, held at the Royal Dutch Institute at Rome (KNIR) in February, 2017. It contains 23 methodological, thematic and material culture studies on the historical topographical reconstruction of the Alban Hills in Antiquity with a focus on the area of contact with the suburbium of Rome. Papers present both data from new research and results of research done in the past. In the initiative a range of research institutions partook (foreign Institutes at Rome, Universities, Archaeological Services) and independent researchers stimulating the exchange of current knowledge of this small, but important part of the Campagna Romana.

*Atmosphere/Atmospheres* Tonino Griffero, 2019-02-01 T00:00:00+01:00 What is an “Atmosphere”? As part of the book series “Atmospheric Spaces”, this volume analyses a new phenomenological and aesthetic paradigm based on the notion of the “Atmosphere”, conceived as a feeling spread out into the external space rather than as a private mood. The idea of “Atmosphere” is here explored from different perspectives and disciplines, in the context of a full valorization of the so-called “affective turn” in Humanities.

Searching for Justice After the Holocaust Michael J. Bazyler, Kathryn Lee Boyd, Kristen L. Nelson, 2019 The Nazis and their state-sponsored cohorts stole mercilessly from the Jews of Europe. In the aftermath of the Holocaust, returning survivors had to navigate a frequently unclear path to recover their property from governments and neighbors who had failed to protect them and who often had been complicit in their persecution. While the return of Nazi-looted art has garnered the most media attention, and there have been well-publicized settlements involving stolen Swiss bank deposits and unpaid insurance policies, there is a larger piece of Holocaust injustice that has not been adequately dealt with: stolen land and buildings, much of which today still remain unrestituted. This book is about the less publicized area of post-Holocaust restitution involving immovable (real) property confiscated from European Jews and others during World War II. In 2009, 47 countries convened in Prague to deal with the lingering problem of restitution of pre-war private, communal and heirless property stolen in the Holocaust. The outcome was the issuance by 47 states of the Terezin Declaration on Holocaust Era Assets and Related Issues, which aimed, among other things, to rectify the consequences of the wrongful property seizures. This book sets forth the legal history of Holocaust immovable property restitution in each of the Terezin Declaration signatory states. It also analyses how each of the 47 countries has fulfilled the standards of the Guidelines and Best Practices of the Terezin Declaration, issued in 2010 in conjunction with the establishment of the European Shoah Legacy Institute

(ESLI) to monitor compliance. The book is based on the Holocaust (Shoah) Immovable Property Restitution Study commissioned by ESLI, written by the authors and issued in Brussels in 2017 before the European Parliament.

**The 'Camps System' in Italy** Riccardo Armillei, 2018-05-16 This book deals with the social exclusion of Romanies ('Gypsies') in Italy. Based on interviews with Romani individuals, institutional and Civil Society Organisations' (CSOs) representatives, participant observation and a broad range of secondary sources, the volume focuses on the conditions of those living in Rome's urban slums and on the recent implementation of the so-called 'Emergenza Nomadi' (Nomad Emergency). The enactment of this extraordinary measure concealed the existence of a long-established institutional tradition of racism and control directed at Romanies. It was not the result of a sudden, unexpected situation which required an immediate action, as the declaration of an 'emergency' might imply, but rather of a precise government strategy. By providing an investigation into the interactions between Romanies, local institutions and CSOs, this book will deliver a new perspective on the Romani issue by arguing that the 'camp' is not only a tool for institutional control and segregation, but also for 'resistance', as well as a huge business in which everyone plays their part.

*The Age of Uncertainty* Alessandro Colombo e Paolo Magri, 2017-07-11 Uncertainties have piled up over the past decade, casting doubt on the stability of the international system. They have been further compounded and exacerbated by last year's events: from Brexit, and the ensuing uncertainty about the future of the UK-EU relations, to the ever-growing success of populist and nationalist movements across Europe; from the unnerving paralysis of the international community on the war in Syria, to the new wave of terrorist attacks in Europe, to the new economic and political crises of pivotal states (Brazil, South Africa, Egypt, and Turkey) in their respective regions. Not to mention Donald Trump's victory in the US presidential election, which may turn out to be a new and momentous source of uncertainty, especially with regard to US-EU relations, the residual resilience of the multilateral framework, as well as the international economic balance of power. The 2017 ISPI Report analyses how last year's major events add to international uncertainties, also with a view to identifying long-term, beyond-the-horizon trends. The first part of the Report focuses on the evolution of the international context, from both a political and an economic standpoint. The second part shifts the spotlight to Italy, where global uncertainties overlap with deep-rooted domestic uncertainties and vulnerabilities.

Undeutsch Fatima El-Tayeb, 2016-09-30 Nach Jahrzehnten scheinbarer Stabilität stolpert Europa in jüngster Zeit von Krise zu Krise. Hier zeigen sich die Folgen einer einseitigen Geschichtsaufarbeitung, die nach dem Mauerfall postfaschistische und postsozialistische Narrative zu einer westlich-kapitalistischen Erfolgsgeschichte verband, während die koloniale Vergangenheit unbeachtet blieb. Fatima El-Tayeb zeigt die Auswirkungen dieses Prozesses anhand des Beispiels deutscher Identität: Immer wieder werden rassifizierte Gruppen - insbesondere Schwarze, Roma und Muslime - als »undeutsch« produziert, als Gruppen, die nicht nur nicht zur nationalen Gemeinschaft gehören, sondern diese durch ihre

Anwesenheit gefährden. Ein postmigrantisches Deutschland braucht daher nicht nur neue Zukunftsvisionen, sondern auch neue Vergangenheitsnarrative.

**The followers of Icarus. Sorcerer's Apprentices in every aspect of life, past and present.** Luigi Balestriere,2020-02-10 In the news on various media it often happens to hear of characters assimilated to sorcerer's apprentices, as they are responsible for consequences that are almost always detrimental and of which they unintentionally lose control. Characters like these have always existed: the essay tries to identify some in the most varied areas, to tell the circumstances in which these apprentices handle their magic formula, whether it really is a chemical formula, or a theory, of a book, a weapon, a drug, a material, the crowd or even sexuality, sometimes making unexpected discoveries. In the end, the author tries to outline the recurrent features of sorcerer's apprentices, perhaps to be able to recognize them, if they wander among us, learn to stay away from them or try to prevent them from harming themselves and especially others.

**Postwar Continuity and New Challenges in Central Europe, 1918-1923** Tomasz Pudłocki,Kamil Ruszała,2021-09-30 This book presents a multi-layered analysis of the situation in Central Europe after the collapse of the Austro-Hungarian Empire. The new geopolitics emerging from the Versailles order, and at the same time ongoing fights for borders, considerable war damage, social and economic problems and replacement of administrative staff as well as leaders, all contributed to the fact that unlike Western Europe, Central Europe faced challenges and dilemmas on an unprecedented scale. The editors of this book have invited authors from over a dozen academic institutions to answer the question of to what extent the solutions applied in the Habsburg Monarchy were still practiced in the newly created nation states, and to what extent these new political organisms went their own ways. It offers a closer look at Central Europe with its multiple problems typical of that region after 1918 (organizing the post-imperial space, a new political discourse and attempts to create new national memories, the role of national minorities, solving social problems, and verbal and physical violence expressed in public space). Particular chapters concern post-1918 Central Europe on the local, state and international levels, providing a comprehensive view of this sub-region between 1918 and 1923.

**Early Greek Ethics** David Conan Wolfsdorf,2020-05-22 Early Greek Ethics is the first volume devoted to philosophical ethics in its formative period. It explores contributions from the Presocratics, figures of the early Pythagorean tradition, sophists, and anonymous texts, as well as topics influential to ethical philosophical thought such as Greek medicine, music, friendship, and justice.

Intersections of Contemporary Art, Anthropology and Art History in South Asia Sasanka Perera,Dev Nath Pathak,2019-02-23 Taking South Asia as its focus, this wide-ranging collection probes the general reluctance of the cultural

anthropology to engage with contemporary visual art and artists, including painting, sculpture, performance art and installation. Through case studies engaged equally in anthropology and visual studies, contributors examine art and artistic production in India, Sri Lanka, Pakistan, Bangladesh, and Nepal to bring the social and political complexities of artistic practice to the fore. Demonstrating the potential of the visual as a means to understand a society, its values, and its politics, this volume ranges across discourses of anthropology, sociology, biography, memory, art history, and contemporary practices of visual art. Ultimately, *Intersections of Contemporary Art, Anthropology and Art History in South Asia* simultaneously expands and challenges the disciplinary foci of two fields: it demonstrates to art criticism and art history the necessity of anthropological and sociological methodologies and theories, while at the same time challenging the “iconophobia” of social sciences.

**Diagrams and Gestures** Francesco La Mantia, Charles Alunni, Fernando Zalamea, 2023-09-16 Drawing a line, and then another, and another. Go back from the lines to the movements they capture and see gestures in them: not spatial displacements, but modes of knowledge that pass through the exercise of the body. Discovering something new in a gesture: the line that contracts into a point or the point that expands into a zone, perhaps sinking into a hole. Thus experiencing a diagram: a becoming other inscribed in the novelty of the gesture and in the changes of the forms it shapes. This and much more is discussed in the essays gathered in *Diagrams and Gestures*. Resulting from trans-disciplinary work between mathematicians, philosophers, linguists and semioticians, the volume delivers an up-to-date account of the most valuable research on the connections between gesture and diagram. As one of the most important themes in contemporary thought, the study of these connections poses a challenge for the future: to elaborate a theory that is equal to new and stimulating research methodologies. We call this theory a philosophy of diagrammatic gestures.

The Oxford Handbook of Migration Crises Dr. Cecilia Menjivar, Dr. Marie Ruiz, Dr. Immanuel Ness, 2019-01-16 The objective of The Oxford Handbook of Migration Crises is to deconstruct, question, and redefine through a critical lens what is commonly understood as migration crises. The volume covers a wide range of historical, economic, social, political, and environmental conditions that generate migration crises around the globe. At the same time, it illuminates how the media and public officials play a major role in framing migratory flows as crises. The volume brings together an exceptional group of scholars from around the world to critically examine migration crises and to revisit the notion of crisis through the context in which permanent and non-permanent migration flows occur. The Oxford Handbook of Migration Crises offers an understanding of individuals in societies, socio-economic structures, and group processes. Focusing on migrants' departures and arrivals in all continents, this comprehensive handbook explores the social dynamics of migration crises, with an emphasis on factors that propel these flows as well as the actors that play a role in classifying them and in addressing them. The volume is organized into nine sections. The first section provides a historical overview of the link between migration and crises. The second looks at how migration crises are constructed, while the third section contextualizes the causes and effects of protracted conflicts in producing crises. The fourth focuses on the role of climate and the environment in generating migration crises, while the fifth section examines these migratory flows in migration corridors and transit countries. The sixth section looks at policy responses to migratory flows, The last three sections look at the role media and visual culture, gender, and immigrant incorporation play in migration crises.

**The Legacies of the Romani Genocide in Europe since 1945** Celia Donert, Eve Rosenhaft, 2021-12-27 This book explores the legacies of the genocide of Roma in Europe after the end of the Second World War. Hundreds of thousands of people labelled as 'Gypsies' were persecuted or killed in Nazi Germany and across occupied Europe between 1933 and 1945. In many places, discrimination continued after the war was over. The chapters in this volume ask how these experiences shaped the lives of Romani survivors and their families in eastern and western Europe since 1945. This book will appeal to researchers and students in Modern European History, Romani Studies, and the history of genocide and the Holocaust.

**Urban Disasters and the Roman Imagination** Virginia M. Closs, Elizabeth Keitel, 2020-09-21 This book affords new perspectives on urban disasters in the ancient Roman context, attending not just to the material and historical realities of such events, but also to the imaginary and literary possibilities offered by urban disaster as a figure of thought. Existential

threats to the ancient city took many forms, including military invasions, natural disasters, public health crises, and gradual systemic collapses brought on by political or economic factors. In Roman cities, the memory of such events left lasting imprints on the city in psychological as well as in material terms. Individual chapters explore historical disasters and their commemoration, but others also consider of the effect of anticipated and imagined catastrophes. They analyze the destruction of cities both as a threat to be forestalled, and as a potentially regenerative agent of change, and the ways in which destroyed cities are revisited — and in a sense, rebuilt— in literary and social memory. The contributors to this volume seek to explore the Roman conception of disaster in terms that are not exclusively literary or historical. Instead, they explore the connections between and among various elements in the assemblage of experiences, texts, and traditions touching upon the theme of urban disasters in the Roman world.
